

Standard Systems Expandable Video Doorphone Kits

Standard Systems Expandable Video Doorphone Kits

DOMULAR 3000 Line

Bitron Video kits are exclusively composed of standard components and are compatible with all available installation accessories. Conveniently organised in individual packages, the kits are designed to streamline sales management, rationalise transportation and ensure top installation efficiency without the annoying risk of forgetting the little bits.

Although they are typically addressed to one-family installations, the kits can be easily transformed into two-family installations simply by adding a monitor. Furthermore, all kits are expandable: this means that they can be used also as advantageous, appreciated starting points for larger and complex systems.

When no expansion is required, DRIN video kits may provide the right solution for one-family only installations (for complete features, please, refer to the specific section forward in this catalogue).

Example of **AV 3239/GR** kit, expanded with an additional 6-button module and other accessories.

Code	Description
AV 3239	One-family monochrome kit, EXPANDABLE, with DOMULAR 3000 surface-mounted panel and MV 3000 white ABS monitor.
AV 3239/GR	One-family monochrome kit, EXPANDABLE, with DOMULAR 3000 surface-mounted panel and MV 3000 SILVER grey ABS monitor.
AV 3254	One-family COLOUR kit, EXPANDABLE, with DOMULAR 3000 surface-mounted panel and MV 3000 white ABS monitor.
AV 3254/GR	One-family COLOUR kit, EXPANDABLE, with DOMULAR 3000 surface-mounted panel and MV 3000 silver-grey ABS monitor.
Monitors for system expansion	
AV 6000	MV 3000 4" monochrome monitor, WHITE ABS. Can be used as additional monitor in parallel to main monitor or to transform AV 3239 standard kit into two-family installation kit.
AV 6000/GR	MV 3000 SILVER 4" monochromatic monitor. Functional features as AV 6000 in silver-grey ABS casing.
AV 6018	MVC 3000 4" COLOUR monitor, white ABS. Can be used as additional monitor in parallel to main monitor or to transform AV 3239 standard kit into a two-family installation kit.
AV 6018/GR	MVC 3000 SILVER 4" COLOUR monitor. Functional features as AV 6018 in silver-grey ABS casing.

Standard Systems Expandable Video Doorphone Kits

DOMULAR *Classic* Line

The expandable Bitron Video kits of DOMULAR *Classic* line offer the same advantages described for the corresponding DOMULAR 3000 kits. Obvious aesthetic differences derive from the use of DOMULAR Classic standard panels and for a larger assortment of monitor types. For one- and two-family systems only, the "2+" and DRIN video doorphone kits offer interesting alternatives. For complete features, please refer to the specific section forward in this catalogue.

NOTE: All kits described in this section are also available with DOMULAR Classic panels with anodised natural aluminium finish. To order, add the **/EV1** Suffix after the codes of corresponding standard versions (e.g.: **AN 8823/GR EV1**).

Code	Description
AN 8823	1-family , EXPANDABLE monochrome video doorphone kit; standard white embedding panel. Each kit includes: GVM 70/1 video group, KSM 70/1 frame, SIM 70 embedding box, A 70 power supply and one 4" MV 3000 monitor with white ABS casing.
AN 8823/GR	1-family , EXPANDABLE monochrome video doorphone kit as above, but with MV 3000 SILVER monitor with silver-grey casing
AN 8831	2-family , EXPANDABLE monochrome video doorphone kit; standard white embedding panel. Each kit includes: GVM 70/1 video group, KSM 70/1 frame, SIM 70 embedding box, A 70 power supply and two 4" MV 3000 monitors with white ABS casing.
AN 8831/GR	2-family , EXPANDABLE monochrome video doorphone kit as above, but with MV 3000 SILVER monitors with silver-grey casing
AN 8427	1-family , EXPANDABLE monochrome video doorphone kit; standard white embedding panel. Each kit includes: GVM 70/1 video group, KSM 70/1 frame, SIM 70 embedding box, A 70 power supply and one 5" MV 80 monitor with white ABS casing.
AN 8435	2-family , EXPANDABLE monochrome video doorphone kit; standard white embedding panel. Each kit includes: GVM 70/1 video group, KSM 70/1 frame, SIM 70 embedding box, A 70 power supply and two 5" MV 80 monitors with white ABS casing.
AN 8849	1-family , EXPANDABLE, COLOUR video doorphone kit; standard white embedding panel, complete with lighting module. Each kit includes: GVCM 70/1 video group, MIC 70 illuminator, KSM 70/2 frame, SIM 70 embedding boxes, A 70 power supply and one 4" MVC 3000 monitor with white ABS casing.
AN 8849/GR	1-family , EXPANDABLE, COLOUR video doorphone kit as above, but with MVC 3000 SILVER monitor with silver-grey casing
AN 8856	2-family , EXPANDABLE, COLOUR video doorphone kit; standard white embedding panel, complete with lighting module. Each kit includes: GVCM 70/1 video group, MIC 70 illuminator, KSM 70/2 frame, SIM 70 embedding boxes, A 70 power supply and two 4" MVC 3000 monitors with white ABS casing.
AN 8856/GR	2-family , EXPANDABLE, COLOUR video doorphone kit as above, but with MVC 3000 SILVER monitors with silver-grey casing.
